

LATEST GREENSTONE HILL OFFICE BUILDING NEARING COMPLETION

The phased occupation of the R300m. Greenstone Hill Office Park in Modderfontein is continuing apace with the 13th building in the development nearing completion.

The new building of 2,500m² is now available for lease or sale at R90/m² (gross) or R13,500/m² respectively says Barrow Properties director, Paul Barrow. Occupation date is set for July 1.

The attractive Greenstone Hill Office Park

At this level of rental the building represents exceptionally good value for 'A' grade office space comments Barrow.

The development is a Barrow Properties, Vunani Properties and Sherratt Property Ventures joint venture within Heartland Properties' Greenstone Hill mixed-use precinct comprising various retail, commercial, residential and industrial segments.

The site of the Greenstone Hill complex has a further 10,000m² of bulk available and for anyone requiring a new building at an attractive rental there is no better opportunity than right now adds Barrow.
